Why AFA?

Unlike other training organisations, which deliver a wide range of training events covering many unrelated topics, AFA's core business is based on the Best Practice methodologies. AFA trainers and consultants have served on the editing teams and review panels for all recent updates of the guidance manuals; several AFA consultants also act as examiners and assessors for one or more of the methodologies; AFA's managing director was commissioned by OGC to write 'Tailoring PRINCE2'.

For ten years AFA has specialised in providing consultancy and training services predicated on the three Best Practice methods – MSP programme management, PRINCE2 project management and M_o_R[®] risk management. Our ethos is to work with client organisations, retaining existing robust processes and further developing them in line with Best Practice guidance. Training events are also tailored to suit the current level of understanding within an organisation; a pathway of progression can be offered to allow understanding and skills to improve and grow. AFA has two main advantages over large consultancy and training organisations:

- We tailor our services to suit the client rather than relying on a set of 'products'
- We focus on the Best Practice methods rather than dabbling in many methodologies or offering a wide and disjointed range of training topics

AFA consultants are very pleased to undertake review and development activities when the Best Practice methods are updated. This allows us to feed real-life experience back into the guidance and to remain at the forefront of Best Practice thinking. We have been involved with revision of all three methods and are currently working with TSO and other professional colleagues to develop a Common Glossary.
